

SINMAG

Rotary Convection Oven

Control panel

SM3-705ER

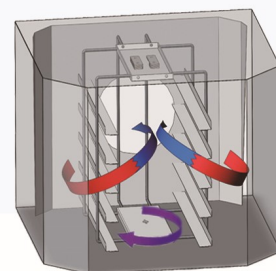

Model	SM3-705ER
Number of trays	5
Tray Size(mm)	400×600
Shelf Gap(mm)	90
Power(kw)	9.5
Voltage	380V~415V(3 phase)
Weight(kg)	210
Dimension(mm)	W1060×D1355×H940
Standard	Steam function
Option	Stand WR16ER-BP (W1060×D1200×H940mm)

Features

- All stainless steel construction.
- New Italian-style design, master-level craftsmanship, one-step formed door.
- Intelligent operating system with capable of storing up to 40 programs, providing more intelligent and convenient baking options. Can set 4 baking stages with automatic steam and automatic ventilation.
- New hot air circulation design for more even heating, baking performance is better than normal convection oven.
- Baking chamber is fully welded with 100mm thickness insulation, which provides stronger heat retention capability.
- Can be combined with deck oven to provide more baking options based on limited space.
